

elliott ives

Meet Elliott Ives.

A new collection offering styles that are classic, casual and built for everyday comfort. Made for a customer that's sophisticated but not showy, Elliott Ives frames appeal to practical sensibilities with thoughtful details that are more timeless than trendy. They're the perfect fit for anyone seeking affordable, designer-quality frames that suit a laid-back style.

In this collection, we drew inspiration from nature, as seen in each style name. We explored the entire palette of Earth tones and incorporated organic design details to create 30 unique styles featuring thin metals, titanium and acetate. Throughout the expansive collection, you'll find tortoisés, jewel tones and matte finishes alongside accents like stones, etching and metal inlays.

Elliott Ives features special segments for a more tailored eyewear experience:

AdaptaFit

Our AdaptaFit styles feature a memory metal alloy that provides increased flexibility for a better, more comfortable fit.

AmplFit

Our AmplFit styles feature wider fits with extended headspace and flex hinges to accommodate broader faces.

Titanium

Our titanium models are super lightweight and durable, while also creating a hypoallergenic metal option.

FRAMES
'CALICO HEARTS' & 'GARRICK'

FRAMES ON FRONT COVER
'MOONGLOW' & 'BANYAN'

At the heart of our Elliott Ives collection is a leisurely lifestyle inspired by the natural world. Each season we'll reflect on earthy hues and flattering details born from the great outdoors.

One of the distinguishing characteristics of this collection is the expansive size range offered—featuring a 4mm spread in women's and a 6mm spread in men's sizing for each style to create a very versatile assortment. Additionally, we've introduced styles featuring an ultra-comfortable memory metal alloy, form-fitting acetates, flex hinges and super lightweight titanium, so there's always a satisfying fit for wherever your day may take you.

Aspen

FULL RIM CAT EYE

This cat eye titanium shape is sure to flatter with its uplifting endpieces and thin metal profile. Carved metal temples give Aspen a distinct sculpted look with a casual ease about it.

Available in Wisteria, Sandcastle, & Navy

AmplFit Titanium

Yarrow

FULL RIM RECTANGLE

Yarrow is a full rim titanium style with durable construction and an integrated spring hinge for a comfortable fit. This staple shape comes in classic hues and features a 6mm size spread to fit a wide range of customers.

Available colors: Gunmetal, Black, & Rust.

AmplFit Titanium

FRAME 'HAWTHORN'

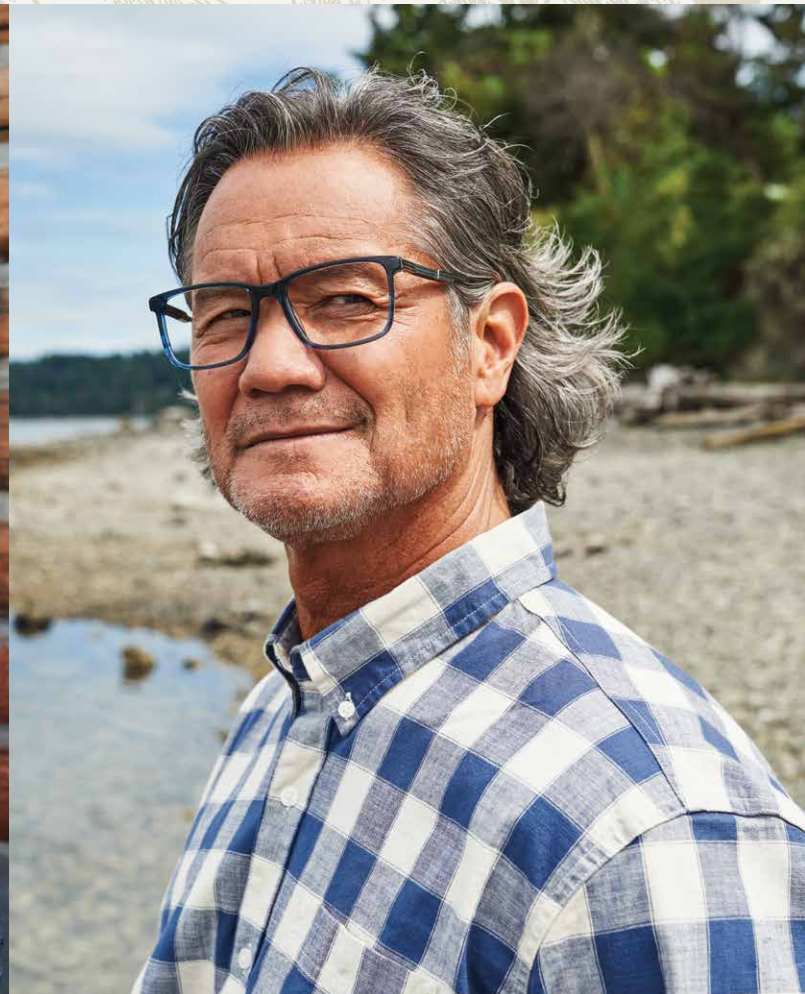

Gasteria

FULL RIM ROUND

A round acetate shape in velvety tortoise colors. Gasteria is garnished with an intricate temple featuring a stone and metal rope ring that wraps around for a jewelry feel and complements many face shapes.

Available in Heather, Hickory Tortoise, & Sky Tortoise.

FRAME 'SASSAFRAS'

Noble

FULL RIM RECTANGLE

A robust acetate style in classic masculine colors. Noble integrates memory metal alloy temples with rubber-wrapped metal endpieces and squared off tips for a distinguished look. Features a 6mm size spread to fit a wide range of customers.

Available in Gray, Navy, & Tortoise.

AmplFit AdaptaFit

FRAME 'HEMLOCK'

Tederheid

FULL RIM RECTANGLE

A simple rectangular shape with modern, elevated endpieces that lift the face. Adorned with crescent moon detailing on the temples and offering a sophisticated color palette, Tederheid is sure to be a best seller.

Available in Denim Tortoise, Cheetah, & Boysenberry Tortoise.

Chaney

SEMI-RIMLESS AVIATOR

Navigate your day in style with this nylon rimless aviator. Chaney features a memory metal alloy and adjustable nose pads for an ultra-comfortable fit that's ready for anything.

Available in Brown, Gold, & Gunmetal.
